

# THE SPEAKERS PROGRAM

ENERGETIC TOOLS FOR THOSE WHO SHARE INFORMATION

The Speakers Program **2** is based on a series of unique vibrational sound programs combining tibetan bells and energetic frequencies with a music overlay for those in the 'speaking' industry and instructions on their optimal use. Includes 15 unique energetic sound programs and a PDF.

When I was putting the Speakers Program together I said: 'It also had me thinking about the fact that I have spent many years (more than 30) attending a wide variety of seminars, workshops and trainings ranging from spiritually based and holistic practices to internet and social media marketing and more; as well as over those years running trainings and teachings of my own.

There have been right across the range of programs I have attended a number of situations that in many instances have been glaringly obvious to my mind, and had me questioning why other people do not 'see' them or seem to be unaware of the possible consequences of these 'situations'.  
Situations? What situations you could ask?

How many times have you gone to a venue to be a part of a course, listened to a speaker or have been a participant in a workshop and felt uncomfortable or uneasy in the room?  
Or have had the speaker ask that 'everyone change chairs / seating positions (and so on).

The specific vibrational sounds from the Speakers Program cover a number of areas including.

Personal clearing for the speaker

Clearing the energetic space where you are speaking or presenting from

Attracting clients or work opportunities

Having participants being focused and attentive

Keeping your energy levels high and balanced

Dissipating energetic attacks when posting on Social Media

The Speaker 1 program consists of the following unique vibrational sound programs and a PDF

1. Alleviate Jetlag
2. Personal Clearing
3. High Order Personal Clearing
4. Clearing Buildings
5. Client Influx
